Note on Election to the State Executive Committee

Each party elects two men and two women to its State Executive Committee from each Senatorial District. No more than two persons may be elected from one county. To determine the result, the candidates receiving the highest and second highest vote are elected. However, once a category is filled--for example, two women, two men, or two from one county--a candidate receiving the next highest vote is excluded if he or she falls into the filled category.
